What is Proposal Development?

The Proposal Development module contains records of proposals which have been created for routing and submission. Data in the Proposal Development module are entered by users in the Department with the appropriate rights for a particular unit.

This module is open to certain campus users based on specific need and is not open to general campus users as the data contained within this module may be sensitive or proprietary. Investigators listed on the proposal have access to view the record and certify the proposal. Departmental and College Approvers have access to view and approve the proposals.

Access to this module is provided at a unit level based on business needs. Data in this module may not be edited once the proposal has been submitted to the sponsor. No data in the Proposal Development module are included in the Data Warehouse and are not included in any institutional reports.

Viewing Proposal Development Records

You can access Proposal Development records by either performing a search or by clicking on the Medusa tab within an Award, Institute Proposal, or Subaward record.

Searching in Proposal Development

From the Unit tab, click on the to the right of Proposal Development. This will open the Proposal Development Lookup screen.
You may commonly find yourself within an Award, Institute Proposal, or Subaward while determining you’d like to view the associated Proposal Development Record. This can easily be done without doing a search from the Medusa tab.

In Medusa, click on the Development Proposal link to view the summary information then click on the “Open Proposal” button to open that record in another web browser tab.
Proposal Development Lookup Screen

You also have the option of directly searching for Proposal Development records. Using Kuali Research searching techniques, type in your search criteria and click on search. If you click on Cancel, the system will return you to the Welcome screen.

Basic searching rules: * is the wildcard character; click on the \( \text{ } \) to do a lookup for that particular field. A vertical bar character | may be used as an OR operator within each field that’s not a pull down.

Search will return a results list at the bottom of the Lookup screen. Click on view to open the selected proposal. **NOTE:** Search results will be limited based on the rights of the user. You will not be able to open proposal development records if you do not have rights to access proposals for that lead unit.
The actions listed will be limited by the rights of the user and the status of the proposal.
